Sep 2018 - Jun 2025

WORK EXPERIENCE

BP

Trading Summer Internship

- Analysed live positioning, flow and pricing alongside short-term rate (STIR) and FX traders.
- Tracked tanker movements through the Strait of Hormuz via BP's vessel-tracking network.
- Rotated across six desks including LNG, power trading/origination and credit/cross-risk.
- Mapped how cash, liquidity, trade finance and regulatory functions support the trading floor.
- Tested my own commodity and macro views against BP's in-house economists.

London, UK

Aug 2026

Schonfeld Strategic Advisors

Spring Intern - Received Return Offer

- Built four macro dashboards tracking commodity, producer and consumer price pressures during heightened Middle East conflict and energy volatility; still used by portfolio managers and analysts.
- Synthesised live Bloomberg and Haver Analytics data into macro-trend summaries for senior analysts and portfolio managers.
- Applied Python, regression analysis and ARDL models to analyse inflation pass-through and price dynamics.
- Authored macro research reports and forecasts, directly supporting investment and portfolio decisions.
- Back-tested links between commodity, import, producer and consumer prices, creating interactive heatmaps ranked by Z-scores across the last 24 months to highlight inflation indicators.

London, UK

Mar 2026 - Apr 2026

Mathnasium UK

Mathematics Tutor

- Tutored a roster of around 50 students, designing bespoke lessons to simplify technical material.

London, UK

May 2023 - Dec 2024

St James's Place - Financial Adviser Academy

Work Experience Student

- Shadowed financial advisers to learn wealth management fundamentals and AI integration into advisory workflows.

London, UK

Jul 2024

Deutsche Bank

Market Risk Methodology Intern

- Analysed front-office risk frameworks including VaR, stress testing and derivatives pricing.
- Examined how risk modelling and trading desks interact, informing real-time trading decisions.

London, UK

Aug 2023

Liberty Specialty Markets

Summer Rotation Programme

- Analysed internal financial strategy and capital flows within the FP&A department, supporting quarterly forecasting.

London, UK

Jul 2023

EXTRACURRICULARS

Automated Markets Morning Brief

Personal Project

- Built a daily Python pipeline (GitHub Actions) turning cross-asset data and central-bank feeds into an LLM-written morning note.

London, UK

Jun 2026 - Present

Independent Finance Projects

Personal Projects

- Volatility, Sizing & Risk Trainer: sizes positions from volatility, stress-tested through historical crises.
- Physical Commodities Toolkit: tanker and LNG chokepoint traffic, forward curve and storage fundamentals.
- Trade Pitch Builder: six fields - view, instrument, sizing and levels, risk/reward, catalyst and what kills it.
- Market Analysis Tools: six-tool global markets suite spanning yield curve, FX carry, earnings and portfolio risk.
- Portfolio Analysis Suite: portfolio construction, backtesting and stress testing against 10 historical crises.
- PL 2026/27 Predictor: Dixon-Coles model on four seasons, 10,000-run Monte Carlo, plus model-vs-market tools.

London, UK

Sep 2025 - Present

Model United Nations

Chair

- Chaired the Economic and Financial Committee (ECOFIN), one of 11 committees at Haberdashers' Model United Nations conferences for 400+ delegates.

London, UK

May 2024
