WORK EXPERIENCE

BP

Trading Summer Internship

London, UK

Jun 2026 – Jun 2026

- Oil & Gas Analytics: modelled crude and gas supply-demand fundamentals to support short-term trading views.
- Financial Markets Trading: shadowed traders pricing and hedging commodity, rates and FX exposure in live markets.
- Economics: worked with in-house economists on macro scenarios driving commodity demand and price outlooks.
- Finance – Treasury: studied how group funding, liquidity and cash are managed across a global balance sheet.
- Pensions: explored long-horizon asset-liability management and the investment of scheme assets.
- Credit: reviewed how counterparty and credit risk are assessed across trading and physical deals.
- Trade Finance: learned how letters of credit and financing structures fund the movement of physical cargoes.

Schonfeld Strategic Advisors

Spring Intern – Received Return Offer

London, UK

Mar 2026 – Apr 2026

- Built macro dashboards tracking commodity, producer and consumer price pressures across global markets during the heightened Middle East conflict and energy volatility.
- Used live Bloomberg and Haver Analytics data to summarise global macro trends for senior analysts and portfolio managers.
- Applied Python, regression testing, ARDL and models to analyse inflation pass-through and price dynamics.
- Produced concise macro research reports and forecasts to support investment and portfolio decisions.
- Back tested links commodity, import, producer and consumer prices, creating interactive heatmaps ranked by Z-scores across the last 24 months to highlight inflation indicators.
